

## LABELS

CALIBOR LABELS TO  
SUIT YOUR BUSINESS!

## calibor

Every customer has their own specific requirements for labels: size, durability, type of material, quantity, etc. This is why Calibor offers an extensive range of high-quality labels as standard stock to suit most Mobile, Desktop and Industrial Direct Thermal & Thermal Transfer label printers. From paper stocks to short-run custom stock, the Calibor label range caters for most thermal printing applications.

### Standard Calibor Label Stock

For general label printing purposes you can't go past Calibor's extensive range of standard stock consisting of multiple sizes. Calibor's selection of label materials meets the requirements of most applications and budgets. Our variable options include, but are not limited to:

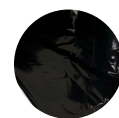

#### PERMANENT/ REMOVABLE ADHESION

Providing extra life for those jobs that require long term labels or easily removable short term labelling.

#### GLOSS PAPER

A premium bright white, ultra smooth paper facestock that is specially coated to provide optimal performance.

#### THERMAL TRANSFER

Labels printed with Thermal Transfer Ribbons for more durable print results (please check your printer specification for this feature).

#### PLAIN PAPER

A standard bright white, smooth paper facestock that is specially coated to provide the optimal balance between performance and price.

## Custom Short Run Labels

Looking for something specific that's not in our range? Contact us to source customised label and tag solutions for your needs. Just let us know the **application, label size, printer model and quantity** and we'll sort the rest!

WHERE

TO BUY?
