

## “Any Old Iron ?”

Where a third party steel pole mount solution is already installed, this can be easily upgraded by adding FlexiPole Connect:

- Retain the base and surface fixing of existing installed steel solutions.
- Simply snap on the FlexiPole Connect
- All the features, benefits and superior aesthetics of the FlexiPole product set can then be added
- Compatible with SpacePole® and other third party poles.  
SpacePole® is a registered trade mark of Ergonomic Solutions Limited.
- Upgrade installed tilt-only solutions to tilt and swivel.
- Removes the hassle of retaining grub screws.
- Upgrade poor fitting friction fit heads to the positive latching mechanism of FlexiPole FirstBase
- Upgrade non-secure third party bases to the secure FlexiPole SafeBase.
